

# TABLE OF CONTEST

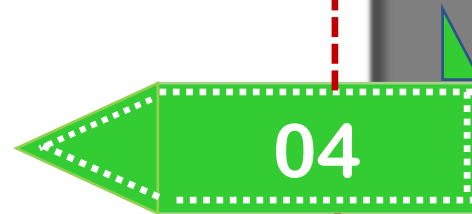

**Introduction**

**About us**

**Our project**

**Contact Us**

## 01.Introduction:-

We from **The team Innovatous** the students of FIEM (Sonarpur Campus) innovated a project regarding **library management**. We add *a new feature* here where *our system is monitoring* users *favourite books or users frequently* reading books. And by monitoring the system can understand and *give a suggest to user* whether the *user willing to read previous books or that related books*.

## 02.About us:-

This **PROJECT** is *Completed* by

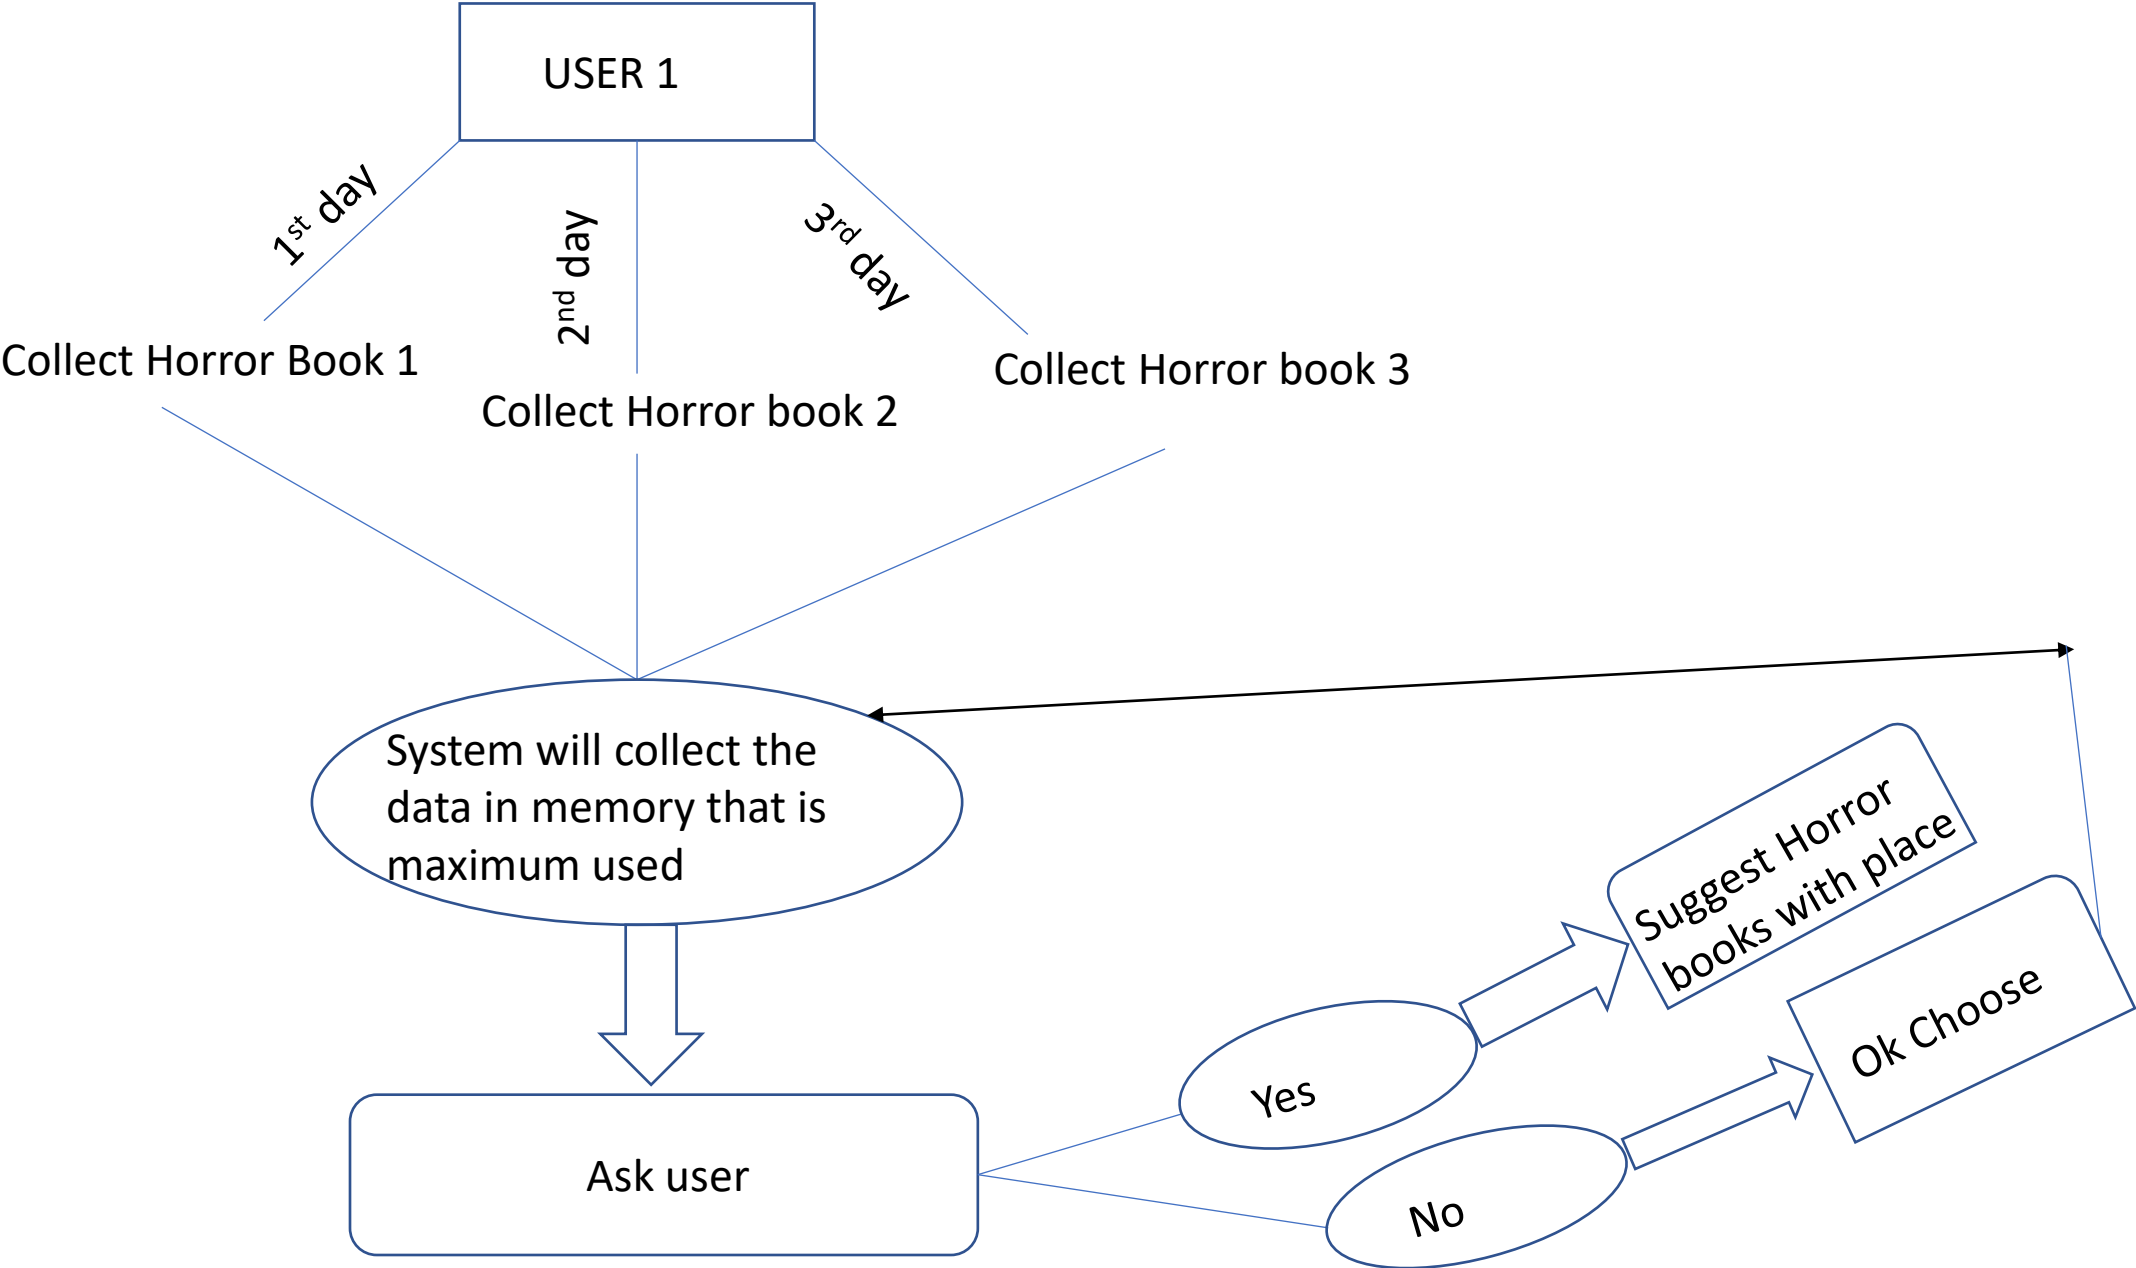

- 1.Sandipan Das
- 2.Ishan Majumder
- 3.Soumodip Santra
- 4.Rajanya Giri

And *mentored* by Tamal Chakraborty (**Assistance professor of CSE at FIEM SONARPUR**)

## 03.Our project:-

This project is *based upon C programming language*. By using string ,structure, array ,file handling dynamic memory allocation and using some basic fundamental of C we first try to ready the error free code and run it.

**Block Diagram:-**

- **TITLE OF THE PROJECT:-**

Library Management (**Application software based project**)

- **AIM OF THE PROJECT:-**

The aim of the project is very unique and simple. OUR PROJECT makes the process easy of finding the users favourite books in the library BY ENTERING USERS Card no.

- **Why Team INNOVETUS unique from others?**

- ❖ We make the users friendly project.
- ❖ All type of users can use the system.
- ❖ ***“If you fail to plan you are Panning to fail ”***.Its well planned and structured.
- ❖ Its not time taking process.
- ❖ This very basic single project may fulfil variety of goals in the todays technical world. Not only that this is applicable for library. Library works as a model.
